

Electronic Patent Application Fee Transmittal

Application Number:	10779459			
Filing Date:	13-Feb-2004			
Title of Invention:	Method of modifying iron based glasses to increase crystallization temperature without changing melting temperature			
First Named Inventor:	Daniel James Branagan			
Filer:	Steven Jay Grossman/Carol McClelland			
Attorney Docket Number:	NANO005U			
Filed as Small Entity				
Utility Filing Fees				
Description	Fee Code	Quantity	Amount	Sub-Total in USD(\$)
Basic Filing:				
Pages:				
Claims:				
Miscellaneous-Filing:
